To the Seneca County IDA Executive Director, Sarah Davis, and the IDA Board:

I had an opportunity to view the October 1, 2020 live steam of the IDA meeting and I wanted to thank the Board for the great discussion about job creation relative to the new Fayette Solar Project. The discussion seemed creative, heartfelt, and sincere with an intent to come to a resolution. It spoke volumes to the character of the Board members.

If I may offer a few points of consideration, I would humbly ask the Seneca County IDA Board to consider expanding the concept of "job creation", not only for long-term jobs, but to consider "construction jobs" and "local labor" as well. It is my understanding that the Seneca County IDA's mission statement is to promote incentives to businesses that will create good long-term jobs for the area. However, with the Fayette Solar Project it was brought to the attention of the Board that there would be very few long-term jobs created by this project.

It has been my experience through the solar projects that I have studied over the past several years, that many of the companies travel to New York State from out of state, and bring most, if not all, of their construction work force with them. This implies that workers travel from Texas, North and South Carolina, Georgia and surrounding states earning wages here, that are then sent back to their home states and promote economic growth there. Granted there is local economic growth seen through the utilization of local restaurants, hotel, and stores, but relative to the project cost they can be minimal.

I would encourage the Board, like neighboring counties to Seneca County have already enacted, is to not only consider "construction jobs" created but also to encourage Delaware River Solar to utilize local labor. Adjoining counties to Seneca encourage percentage requirements for workers to reside within Seneca County, in counties that boarder Seneca County, and then those workers and companies that have domicile within New York State.

I hope that the Board finds this information helpful if not for this solar project, or any project for that matter, may it consider it for the next.

I thank you so much for your time and attention to this email,

Marie Smithgall Council Representative for the North Atlantic States Regional Council of Carpenters 6920 Princeton Ct. Syracuse, NY 13212
