**Short Environmental Assessment Form
 Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

No impacts.

<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	
<input checked="" type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Part 1 - Project Information

Instructions for Completing

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 – Project and Sponsor Information			
Construction of a 13,650 SqFt Manufacturing Facility			
Name of Action or Project: Construction of a 13,650 SqFt Manufacturing Facility			
Project Location (describe, and attach a location map): 2495 BonaDent Drive, Seneca Falls, NY 13148			
Brief Description of Proposed Action: As we explore the possibility of expanding manufacturing capabilities in Seneca Falls, we are considering entering into a land-lease agreement with Bruce Henry Properties LLC, dba as BonaDent to lease a 15,000 square foot parcel of property on the north end of BonaDent's current facility. Danaren intends to utilize the land to construct a 13,650 square foot manufacturing space. Danaren has positioned itself as a cost effective option for dentists looking for a low cost restoration. They compete directly with laboratories in China, India and Mexico or with US Laboratories who currently outsource their work to those countries. Danaren has outgrown its current manufacturing space and in order to continue to grow its business, needs additional manufacturing space. We request the IDA's consideration in providing financial assistance for this project through Sales and Use Tax Exemption, Mortgage Recording Tax Exemption, as well as an amendment to the current PILOT agreement between the Seneca County IDA and Bruce Henry Properties LLC dba as BonaDent to include the 13,650 square addition. With adequate space to operate, Danaren will be able to not only retain its 36 current employees, but also grow to add a projected 35 jobs over the next 5 years in both executive and manufacturing, with a median salary of \$55,000.
