ADDENDUM TO IDA APPLICATION FOR FINANCIAL ASSISTANCE

Local Labor: The Company hereby represents and warrants that it will use commercially reasonable efforts to hire, and cause any agent of the Company, general contractor, subcontractor, or subcontractor to a subcontractor working on the Project, to hire employees who live within Seneca County. The Agency understands and acknowledges that at certain times local labor may not be available. Upon such an occurrence, the Company shall request the Agency to waive the local labor requirement.

**SENECA COUNTY INDUSTRIAL DEVELOPMENT AGENCY
UNIFORM PROJECT EVALUATION POLICY**

Pursuant to and in accordance with Section 859-a(5) of the General Municipal Law ("GML"), the Seneca County Industrial Development Agency (the "Agency") hereby establishes a Uniform Project Evaluation Policy for the evaluation and selection for all qualifying categories of projects for which the Agency may provide "Financial Assistance" (as defined herein). "Financial Assistance" shall include any of the following: (i) the issuance by the Agency of tax- exempt bonds; (ii) sales and use tax exemption; (iii) mortgage recording tax exemption; and (iv) real property tax exemption (with or without a related agreement for payments in lieu of taxes).

For each Application for Financial Assistance received by the Agency, the following must occur prior to authorizing the provision of Financial Assistance:

- 1) The Agency shall undertake an assessment of all material information included in connection with the Application for Financial Assistance as necessary to afford a reasonable basis for the decision by the Agency to provide Financial Assistance for a project. Such information may include, without limitation, qualification of the proposed project under the GML (including any retail analysis, as applicable), the applicant's financial history, project pro-formas, and consideration of local development priorities.
- 2) A written cost-benefit analysis shall be utilized by the Agency that identifies the extent to which a project will create or retain permanent, private sector jobs, the estimated value of any tax exemptions to be provided; the amount of private sector investment generated or likely to be generated by the proposed project; the likelihood of accomplishing the proposed project in a timely fashion; and the extent to which the proposed project will provide additional sources of revenue for municipalities and school districts; and any other public benefits that might occur as a result of the project, taking into account the economic condition of the area at the time of the application, the effect of the proposed project upon the environment and surrounding property, and the extent to which the proposed project will provide a benefit (economic or otherwise) not otherwise available within the municipality in which the project is located.
- 3) The Agency's Application for Financial Assistance shall include a statement by the applicant that the project, as of the date of the application, is in substantial compliance with all provisions of GML Article 18-A, including, but not limited to, the provisions of GML Section 859-a(5) and 862(1); and
- 4) If the proposed project involves the removal or abandonment of a facility or plant within the State of New York, the Agency shall notify the chief executive officer or officers of the municipality or municipalities in which the facility or plant was located of the Agency's receipt of an application for Financial Assistance.

**SENECA COUNTY INDUSTRIAL DEVELOPMENT AGENCY
PROJECT REVIEW AND RECAPTURE POLICY**

The Seneca County Industrial Development Agency (the "IDA") reserves the right to review the performance of projects for which the IDA's financial assistance has been granted (a "Project") to determine if a Project has met the obligations and conditions set forth in the IDA approvals and agreements related to the Project (the "Project Documents"). The terms and conditions of the Project Documents (the "Material Factors") will serve as the benchmark for determining a Project's compliance.

Material Factors should be explicit and measurable and may include items such as investment, job creation, retention or other factors as determined by the board. Material Factors may vary from Project to Project.

Non-Compliance Review Process:

If a Project is found to be non-compliant with the Material Factors, the IDA shall undertake the following:

1. The IDA shall notify the Project owner/operator (the "Company") in writing that, in the IDA's determination, the Company has violated a Material Factor.
2. The Company shall be given an opportunity to remedy the violation.
3. If the Company is unable or unwilling to remedy the violation, the IDA shall seek additional information/explanation from the company as to why a Material Factor was not achieved. These may include economic or natural factors that led to the violation. These factors should be discussed and predetermined to the extent possible by the Board and may include items such as, natural disaster, industry dynamics, unfair competition or economic events that were outside the control of the Company.
4. The Company shall be provided the opportunity to present to the IDA any information as outlined above regarding why the Material Factor was not achieved.

Board Actions:

Following completion of the Non-Compliance Review Process described above, the IDA Board will consider whether to keep benefits in place, reduce, terminate, and/or recapture financial assistance. The following options will be reviewed and considered by the IDA Board:

1. Upon a review of the facts the Board may determine that the non-compliance was justified and/or adequately explained and may consider the matter closed without further action, or set a specific time period for the Company to achieve compliance. This may also be accompanied by a period of increased reporting or such other conditions as the IDA Board may reasonably impose. (e.g., review violated Material Factor(s) quarterly until remedied.)
2. In the event of non-compliance with a Material Factor that is not, in the IDA Board's determination, justified by factors outside the Company's control and/or otherwise adequately explained, the IDA Board may determine that such non-compliance will

result in the reduction, suspension, termination and/or recapture of financial assistance, as provided below.

Reduction of Financial Assistance: The IDA Board may determine that a reduction in financial assistance is appropriate, which reduction may include, without limitation, increased required payments under an agreement for payments in lieu of taxes.

Termination of Financial Assistance: The IDA Board may elect to terminate any ongoing financial assistance to a Company. Reasons for termination should be explicit and may include, without limitation, continued violation of the Material Factors or failure to comply with ongoing reporting or compliance requirements of the IDA.

Recapture of Financial Assistance: An IDA Board may require that all or part of the financial assistance for a Project be returned, including all or part of the amount of any tax exemptions. Events justifying recapture may include, without limitation, a Company knowingly providing false information on an application or a compliance/monitoring report; a finding that the Company did not make a good faith effort or have any intention of meeting a Material Factor; a company ceases operations and/or relocates; material non-compliance with state and/or local laws or regulations; and material shortfalls in job creation and retention projections.

In the event an IDA is successful in recapturing financial assistance, such funds shall be returned to the appropriate affected taxing jurisdictions on a pro rata basis unless otherwise agreed upon by the local taxing jurisdiction.

Annual Review

The IDA shall annually assess the progress of each Project for which bonds or notes remain outstanding or straight-lease transactions have not been terminated, or which continue to receive financial assistance or are otherwise active, toward achieving the investment, job retention or creation, or other objectives of the Project indicated in the Project applications. Such assessments shall be provided to the IDA Board.
